Re: *In the Matter of Regulation of Prepaid Calling Card Services,*  
*WC Docket No. 05-68*

Dear Ms. Dortch:

Yesterday I had a telephone conversation with Lynne Hewitt Engledow of the Wireline Competition Bureau in regard to the above-referenced proceeding. In particular, we discussed resources available to non-carrier prepaid card platform providers to match NPA-NXX codes with geographic location.

As follow up to our conversation, I provided Ms. Engledow via email links to: i) the North American Numbering Plan Administration (NANPA) webpage that enables users to reverse look-up NPAs ([http://www.nanpa.com/area\\_codes/index.html](http://www.nanpa.com/area_codes/index.html)); ii) the NANPA webpage that enables users to look-up individual central office codes (NPA-NXX) and the switches or carriers with which they are associated ([http://www.nanpa.com/reports/reports\\_cocodes.html](http://www.nanpa.com/reports/reports_cocodes.html)); and, iii) the Mitretek Systems "NPANXX Locator" webpage that automatically generates the geographic location associated with the NPA-NXX input by the user (<http://netinfo.mitretek.org/npnxxx.plx>).

One electronic copy of this Notice is being submitted to the Secretary of the FCC in accordance with Section 1.1206 of the Commission's rules.

Sincerely,

A handwritten signature in cursive script that reads "Amy L. Alvarez".

cc: Lynne Hewitt Engledow
